Text Stream Manager
tokens · partials · cancel

TURN NORMALISER
modality-neutral Turn object

LAYER 3 AI GATEWAY (orchestrator, not a monolith)

Model Router

Context Engine

Policy Engine

Agent Planner

TOOL DISPATCHER
the single execution chokepoint

LAYER 4 CAPABILITY SERVICES (the nine features)

Session Resume

Folder Tidy

Notes Synthesis

Pattern Watcher

Code Assistant

Web Search

Mail Composer

Document Drafter

Support: Workspace Broker · Indexer · Undo Journal · Approval Broker

LAYER 5 DATA PLANE (local only, never uploaded)

SQLite
metadata, sessions,
rules, audit

Vector Index
per workspace

Key-Value
Memory Store

Snapshot Store
undo blobs

Credential Vault
OS keyring

EXECUTION / PERFORMANCE PLANE

*LAYER 6 · REMOTE ACCESS PLANE is drawn separately,
because nothing in Layers 1 to 5 depends on it.*
